

## **A Mountaintop Experience**

### **Our Vision**

**Friendly:** Someone will greet you with a smile, a wave or hello! They will acknowledge that you are here! They will treat you with kindness, acceptance and respect.

**Team:** Whether you are student, teacher or parent you will feel a part of the Mountain Community. We will enable you to use your special skills to make this a better place. It is our goal to partner with everyone in our community to make this an exceptional place for children.

**Engaging:** We strive to create an innovative, fun and engaging learning environment! We are always trying to improve our practice and make it an amazing learning experience for our students.

**Expectations:** We want our students to do well academically and socially. We not only have this expectation for our students but ourselves as well.

We believe that if we focus on these four areas people will have A *Mountaintop* experience.
